Mr. LEVIEN said that he was doubtful whether the finister could inquire, in cases of suspected dummyism, ato anything but as to whether the conditions of residence and improvements had been fulfilled. No man need newer a question as to how he obtained the money to make approvements. All he need show was that the requisite approvements had been made, and that he had resided upon he had a ufficiently lone.

improvements had been made, and that he shad resuce a pos-the land sufficiently long.

Mr. R. B. SMITH said that be thought it only just that any hon, member bearing the bon, member for the Upper Hunter attack officers who could not defend them-solves should state his experience of them. As regarded the Lands Department, he did not believe there was a more meritorious, just, able, and hard-working officer than the Under-Socretary, Mr. Oliver. He believed has the Under-Socretary's health had been in-paired through too close application to his duties, and interfore, it could not be said that be had neglected them. With regard to the Minister for Lands, he controded that he had always acted with fairness and impertaility, and the sharges of having acted unfairly which had been made against him he bolieved had no foundation.

planation of this matter from the Minister.

Mr. FARNELL said he would not sell an inch if he could help it, but as long as the law allowed it he could not help it. Selections under the 14th section were legal. If the sand was reserved it must be reserved for some purpose, as for water supply. Applications had been made, and he had peterned the question it the Attorney-General. If the Attorney-General said it was illegal he would at once make hem wold. Every selection was under the 13th section. Be admitted that the principle of selling mineral land was less denoted that the principle of selling mineral land was

then a freed.

Mr. FARNELL repeated that the law permitted these
mineral conditional purchases, and he could not prevent
them. The matter had not been lost sight of by the Department. High legal authorities had given their opinion that
planeral conditional purchases can be taken up on a gold-

interest conditional purchases can be taken up on a gold-leid.

Dr. ROSS would like to ask the Minister for Lands if he did not in a previous case reveree a decision which had been given by a previous Minister? He considered there was no proper administration in the Lands Department. He had papers to show that the Minister for Lands had reversed a flecision which had previously been given in the case of a man assed Milleate. There were some cases of conditional purchases which had been in dispute for eight years and had not yet been settled. He thought the Lands Department was nothing more than a mass of corruption. It was absolutely impossible to get any antifaction at all from the Lands Department. He suggested that that estimate should be held over until the Land Bill was passed. He thought the sconer the administration of the Lands Department was swept out of enistence the better it would be for the colony. He referred to the case of Mrs. Clive, and sontended that a thorough case of fraud was shown in that was. They ought to instat upon the Land Bill being profused and passed into law, instead of voting money to carry so the present iniquitous system of land law administration.

Mr. O'CONNOR: Of course, as you have decided it is

> The abstract of revenue, receipts, and expenditure for the quarter and year discloses little that was not anticipated. The effects of the drought must have prepared every one for a reduction in the quarters revenue, and that this reduction is only £14,505 on the total for the corresponding quarter of 1883—the respec-tive amounts being £1,512,861 and £1,498,265 is a more satisfactory out-turn than might

have been expected.

Looking at the quarter's taxation revenue, which reached £480,010, we find an increase of £60,234. No doubt this is in a small measure due to the alteration of the tariff, for we find for the first time the excise duty on tobacco yielding £725. Some additional amount may also have been obtained from the enlarged duty on imported tobacco. But a very small proportion of the increase arose from the increase of taxation. And the general stagnation in trade does not justify the belief that much, if any, portion of it was derived from an enlarged consumption of dutiable goods. The explanation of the increase is the very large payments on bonded goods in January, in anticipation of an increase in the tariff. For instance, the quarter's revenue from tea was £36,618-an increase of £21,005 on the amount received in the first three months of 1883. As the total ravenue from tea in 1883 was £75,719 only, it will be seen that the last quarter's receipts In the Legislative Council yesterday,

the parts taxation revenue may be more fairly compared with that of last year. The botal, £1,051,042, represents an increase of total, £1,051,042, represents an increase of £24,810 only. But still the unduly favourable Customs return of the present quarter gives an advantage to the return of the latter year, which is scarcely likely to be maintained when the period is extended three months. Having regard to the increase of population, which is fully 5 per cent., the year's taxation revenue, even with the favourable quarte included, shows a considerable falling off. He said Mr. Moriarty hoped the supply from Nepsan would be available within two years, an Ithough had great confidence in that gentlemal is thought that, as other engineers were of opinion would take a much longer period to carry out the theme, the Coverament should take some stops in the atter. The auction sales for the year only yielded £83,419, and for the quarter £23,487—sums less by £550,700 and £94,884 than those for the previous year and quarter. Nothing for the previous year and quarter. Nothing was received for selections after auction, which in 1882-3 yielded £411,035. Alienation of land by conditional purchase Government should take some steps in the atter. Tose consumption kept on increasing rapidly, it howas of opinion that it would be wise under the of metances if the Government were to make arrangeme for getting a temporary supply by pumping from he Nopenn, which would not cost more than £50,600 br year, till the permanent supply could be relied upo He thought they were overtaxing the supply from Bey, and that the scheme of supply by rail was impracible.

A debate ensued, in which Mr. Wing, Sir Jong Robertson, Mr. Chapman, Mr. Poole Mr. A. G. Taylon, Mr. Garman, Mr. W. Campiell, Dr. Ross, Mr. Poorr, and Mr. W. Campiell, Dr. Ross, Mr. Poorr, and Mr. Gratims joined. further purchasing. The total deposits on conditional purchases amounted to £63,044 Mr. Withers, Mr. O'Connor, Mr. W. An increase of £12,054 is shown on the quarter for receipts from improved purchases, whilst there is also an increase for the quarter of £7842 in the amount of the instalments on conditional purchases. The payment of balances on conditional purchases, amounting to £57,556, which was ast for 12 months.

The receipts for services rendered, which now forms the largest of the four heads into which the revenue is divided, amounted for the year to £2,766,282, an increase of £349,423; and for the quarter to £694,323, an increase of £99,621. The figures of this branch of revenue are advancing by leaps and bounds, and at no very distant date are likely to constitute more than half the total revenue of the Government With the extension of the railways, the leadthe previous year, while on the quarter there costly Department of Public Instruction.

It is impossible to make any comparison forward in the next accounts, and that the Government have still available the full amount of the last loan together with the sh balance, or in all a sum of about £8,250,000, to meet their engagements.

H.I.M.S. Hyane brings us the intelligence of another massacre in the South Seas. There is no survivor of the ill-fated ship's crew left to tell the tale. All that is known of the and affair has been obtained from the natives of the adjoining districts, and as a rule such Information is generally found to be very un-trustworthy. In this instance, however, the relics obtained by the expedition which was sent from the Hymne to punish the satives abundantly prove the truth of the in-formation given as to the fact that the Mecke, small German schooner, which left this port ember last for New Britain, was captured near Cape St. George, on the south end of New Ireland, by the natives of Metlek, that the captain and crew were all killed, some re and some on board, and that the ves-

sel was then plundered and burnt. The usual attempt was made to punish the natives for this outrage, but with very indifferent succeas. We are also informed that the action taken by-Capitain Grazie, and the second sec natives for this outrage, but with very indif-ferent success. We are also informed and it is very probable that if some effective punishment had been meted out to them at that time, the present outrage would never have been committed. But the whole estion of our jurisdiction in those sens is full of difficulty, and can only be effectually dealt with by some comprehensive plan which, whilst providing for the punishment of ng-doing on the part of the natives, will use that a fair and satisfactory examination shall precede the indiscriminate slaughter which must always follow an act of war, andertaken in many cases under the pressure of great excitement and cries for vengeance. So far as we remember, the French colonists, who at Likiliki were almost at the mercy o those natives, had no reason to complain of them, and they lived amongst them in peace and safety for months. To what, then, are we to attribute this attack? It is folly to assert that all these outrages are perpetrated by the natives in revenge for unlawful acts itted by labour vessels. The simple desire for plunder, stimulated in many instances by e gross carelessness of those on board some of the ships which visit them, has unn quite sufficient in some wellauthenticated cases to account for the attack, and it may have been the only motive which apted this last sad massacre : but it is not cant that this event should have happened in the very district against which some teachers engaged in the Wesleyan Mission were warned some few months previously as reported by us in this journal in a service warded by the Rev. Dr. KELYNACK from Rev. I. ROONEY. They were proceeding to some

great increase of income. The railway of several of the people there by the crew of several alone for the year was £2,161,154, a Queensland labour vessel. The natives rebeing £283,808 in excess of the income for ported that twenty men were got into the was an increase of £80,152. Whether these figures in any way represent a net increase This report may be true, or it may be a mere in the railway working is quite another native rumour; but the ever-recurring stories in the railway working is quite another in the railway working is quite another in the railway working is quite another matter, which can only be decided by matter, which can only be decided by owned attacks by natives, and of gross inhumanity propertated by whites on the native humanity propertated by whites on the native humanity propertated by whites on the native races, abundantly prove that some effective measures must speedily be adopted to remely the evils which most undoubtedly exist. If this can be accomplished by the appointment this can be accomplished by the appointment of the control of year, £419,412, exhibits a proportionate in-tropy of a High Commissioner with extended quarter were more by £2975 than in the first quarter were more by £2975 than in the first quarter of 1883; but the total income for guarantee for our share of the expense which the year, 254,402, barely represents one lif- the Imperial Government demands. If by such syear, 254,402, barely represents one if-means fair and equal justice can be meted with part of the total expenditure in the means fair and equal justice can be meted out to black and white alike, we shall have gone far to solve one of those difficulties which confront us when we attempt to sattle the vexed question of the relationship which those Western Pacific groups must sustain in the future to these Australian colonies.

The drought, which has so long been painw a decline of £5708, the chief cause of fully present to the eyes of our country reduction being the lessened income settlers, is now brought home to the "business and bosoms" of the citizens. The flat has gone forth from the Town Hall, and the between income proper and expenditure water is cat off. There is not enough for the proper for the quarter and year, because the usual supply, and like a distressed ship's water is cas off. There is not enough for the seture of expenditure for the period is neces-crew, we are put upon short commons. A sarily incomplete. All we can do is to point continuous supply of fresh water is a great early incomplete. All we can do is to point continuous supply or fresh water is a great out that the very great expenditure of last year is being continued this, and to show great a luxury we do not find out till we miss it. The quantity of water that the City Engineer proposes to supply on his intermittent green is as much as many cities proper—amounted to £1,408,205, the expenditure of the Consolidated Revenue Account to med to mything better, and their habits and are on the Consolidated Evenue Account tomed to mything better, and their habits and mounted to £1,833,122, inclusive of £203,310 necessities are adjusted to it. We have ture on the Consolidated Revenue Account amounted to £1,833,122, inclusive of £203,310 paid out of the accumulated surplus fund. Besides this, £731,301 was spent during the quarter for loan purposes. This heavy expenditure—£1,060,148 more than the revenue proper—together with an excess of receipts over disbursements on the Trust Funds Account, explains the reduction of the Government cash balances from £1,203,217 to £247,311. But what has become of the first part of the proceeds of the last £3,000,000 loan, of which £450,000 was payable during the quarter? As far as we payable during the abstract. As 10 per cent. was payable on the first part of the form of the first part of the proceeds of the last £3,000,000 loan, of which £450,000 was the proper column. We may conclude of course that if the money is not entored as received it has to be brought forward in the next accounts, and that the Government have still available the full Government have still available the full galvanial iron are busy. Most houses will loan. brisk defand for tanks, and the workers in galvanist iron are busy. Most houses will be supplied, and after a time we shall learn how to apt ourselves to the system of intermittent apply. But nothing can ever make us contisted with it, and we shall look eagerly or the rain to release us from the property of the rain to release the property of the rain to release us from the property of the rain to release the property of the rain to a release the property of the rain to a release the property of the rain to a release the rain to the rain to a release the rain to unpleaset dispensation of economy.

Our London correspondent writes on February 22 : ties, such a result has not been arrived at up to the date of my writing. It some that the Propagands chose, out of three names sent in by the clergy, that of Dr. Moran, but the Prop did not forthwith act upon their proposition. The cause of the long delay which has taken place in the confirmation of Dr. Moran's appointment has arisen out of the strong opposition of the Dominicans to his nomination. The See of Sydney has hitherto been held by a Dominican, and the Pops would willingly brook through this practice, but the members of the latter order are bringing strong pressure to bear to prevent this."

They have made 61 inspections, travelled over a distance of 2135 miles, and found 177,115 acres infested. They report that on two runs the rabbits are increasing, on 16 stationary, and on 48 decreasing. On the runs inspected the number of men employed rabbiting is 210, the number required being 211. The number of rabbits reported as killed is 5700. On nearly all the holdings visited this week the rabbits are reported to be decreasing, and the number of men carrying on the work of extermination is much nearer what is required The rabbits destroyed only represent those actually caught; many are destroyed in their burrows by earbon, of which there can be no account taken."

THE Queensland National Bank, Pitt-street, created a reat amount of interest yesterday by the exhibition of Such an unwonted spectacle drew crowds to witness it, and at times the side walk was blocked with apertators. The gold consisted of 50 ingots from the Wilmot Extended Gold-mining Company, Limited, weighing together 11,0000x,: 26 ingots from the Ellen Harkins Mice, weighing ingote from the filten Harkins Sites, weighing 4500cs; sad 34 ingote, the produce of sundry other claims, the whole amounting to about three-quarters of a ton in wight, and representing in value 280,000. The gold from the Wilmot Extended is the result of nine weeks work, and that from the Eilen Harkins, of five weeks' work. Both claims have been worked for years, and have at length justified the faith of the men who have persevered in the search for hidden treasure. Many lost heart in the ventures long ago, and gave up, or were glad to sell out at Suakim. at a nominal price, and it was very likely that nearly as much as the value of the gold on crhibition yester-day from these two claims has been expended on the works since they were first commenced. The evidence of the engine-driver, on behalf of the defendant, showed that the engine-driver, on behalf of the defendant, showed that it was impossible to entirely prevent the escape of sparks from the engines. The fire nattings were said to be in good order. The jury returned a verdict for plaintiff, damages £453 ls. 3d. The Judge leaves for Albury to open the

inverset in the room. A committee meeting was subse-quently held, when Mr. Gowlland was appointed to repre-sent the financial committee, and Mr. R. B. Wood was

year and to draw up the programme.

The annual meeting of the Murrumbidgee Pastoral
Association was held last night at the Australian
Hotel, Mr. T. H. Mate, the president, in the chair.
There was a good attendance. The secretary, Mr.
R. B. Wood, read the report and balance-sheet, which were
adopted. The report showed that £232 had been expended name to "The Murrumbidgee Pastoral and Agricultural Association," and extending its operations by offering special prizes for agricultural implements, stock, and farm and duiry produce. Donations to the special prize fund of upwards of £100 were promised. The belance-sheet showed a crosit of £128, and after some discussion the subscription to the society was reduced to £2 2s. Bolton, and C. F. Bolton. GRAFTON, WEDNESDAY. The examination of witnesses at the special meeting and proof of debts in the estate of Messrs, Davison and Porter, late storekeepers, at Lawrence, was held before the District Commissioner to-day. It lasted four hours, and had then to be adjourned until Satarday, in consequence of the Police Magistrate having to attend the Court at Rocky Mouth to-morrow. The witnesses examined were Mr. A. W. Davison and Mr. Henry Lucke his fatherwere olf, A. W. Davison apparently of much importance was elicited. The meeting was called by the Sydney craditors, for whom Mr. Laman appeared on behalf of Meesrs. Holdsworth and Evans. No debts were proved at

the meeting.

A meeting of the committee of the Grafton Hospital was held to-day to consider the report of the sub-committee recommending the introduction of the system of trained females for nursing, which was adopted after some discussion and alight opposition. The report recommends the engagement of a matron and superintendent, and such other nurses as may be required. The new avalem is to be intro-

duced from 1st July, and applications for the office of matron will be invited as soon as a special meeting of the subscribers confirms the necessary alteration in the rules to meet the case. It is proposed that all of the new buildings known as the Irving wing will be set apart for this special purpose. The sub-committee were greatly guided by the advice of Miss Coburn, the lady superintendent of the Sydney Hospital; Miss Murray, matron of the Prince Aifred Hospital; Miss Holden, lady superintendent of the Children's Hospital, Glebs Point; and Mr. Isace Gorrick, of Maitland, in their recommendations. The committee passed land, in their recommendations. The committee passed votes of thanks to the above ladies and to Mr. Gorrick for their numerous and valuable suggestions. The hospital at their numerous and valuative ways.
the present time has 12 patients.
A cold south-easterly wind has been blowing to-day, but
he weather is clear, and no sign of rain.

HUNTER RIVER AGRICULTURAL ASSOCIA-

[BY TELEGRAPH.]

WEST MAITLAND, WEDNESDAY. The twenty-fourth annual show of the Hunter River Agricultural Association was opened this morning with reather of an uncertain character. The sky was darkened by heavy clouds, and for some hours was so threatening that it was confidently expected that the drought which has been experienced in the Hunter valley as elsewhere was about to be broken. About 11 o'clock a heavy shower fell, speciality the various sites proposed for the public works under has department, but principally to report upon and device a scheme for a pure water apply for the form.

At a special mosting of the numbergal council last evening, a wrist of thanks was accorded to Mr. Case, the justor means of the control of the control

THE BATHURST AGRICULTURAL SHOW. [BY TELEGRAPH.]

BATHURST, WEDNESDAY BATHURST, Wednesday.

The annual show of the Bathurst Agricultural, Horticultural, and Pastoral Association was opened to-day, and from the appearances in the morning it will quite come up to expectations. The main building is filled with exhibits of garden and dairy produce, fruit, vegetables, and wheat being particularly good. The exhibits comprise pottery from the Lithgow Valley Company's works, coffee ground and unground, cordials and colonial wine, flour and bread, unground, cordials and colonial wine, flour and bread, jams and preserved fruits, ferns, shrubs, and flowers, pictures and fancy articles, &c. Considering the dry season it is quite wonderful how such a creditable exhibition of produce was brought together. Outside, the show of stock is larger than usual, especially of horses. Sheep and cattle pictures and fancy articles, &c. Considering the dry season it is quite wonderful how such a creditable exhibition of produce was brought together. Outside, the show of stock is larger than smal, especially of horses. Sheep and exitie are also present in considerable numbers, and of undesniable quality; pigeons and poultry are also well represented. The most conspictuous improvement is in the machinery section, which occupies almost the whole of the western side of the enclosure. Steam power and shaftigh have been provided for working the larger machines, which will be exhibited in motion during the show. The principal exhibitors in this section are Messra. E. Webb and Co., M'Lean Brothers and Rigg. Martin and Co., A. and T. Pringle and Co., George Pish, Ruston, Proctor and Co., Bloman, H. Hockey, E. Shanshan, J. Godfrey, George Church, Aifred J. Trewin, and J. Honeyman. The show of horses was most creditable, especially in the draught section, in which the principal price takers we at W. Kite, Sullivan, Surtor, A. Hamer, J. K. Anderson, Dowling, Cornwell. Hamser beat all conners, with a fine stallion. The prices for blood stock were secured by Sullivan Brothers, G. Lee, W. Kite, G. and H. Suutor, and E. Ingersole. J. Kutherford's President Grant obtained the prize for toting stallion, and M. M'Grath first prize for coshing stallion. The cattle compare favourably with last year's show. In Durhams, W. and J. Lee, besides other prizes, took the silver cap for the best buil, and the other prizes for the best Avrahire built. G. S. Dawson, George Lee, R. Y. Cousins, W. Ingorsole, and T. Baird were successful competitors were Hone. G. Lee, Sullivan Brothers, I. The show in sheep was generally good, and some first-class animals were panned; inneed, as a whole the classes both as to number and quality have never been equalled in the district. F. B. Suttor distanced all competitors for fine-wooled sheep, tak in green the prize for a pon of six ewe hoogy in the cansel-man and E. H. Parker secured the honours. Mort and Co

THE A. J. C. AUTUMN MEETING.

THE A. J. C. AUTUMN MEETING.

MELBOURNE, WEDNSEDAY.

There has been a disposition to-day to back MartiniHenry for the A. J. C. St. Leger, and odds of 65 to 40
were accepted by the fielders. There does not seem to bee
much right-out betting over the Sydney Cup. Commotion
is still at the head of quotations at 7 to 1 offered, Le Grand at 10 to 1, whilst the fielders offer 100 to 8 against anything else, Pirat Demon coming in for support at 100 to 7 to win a century or two. Little Sister is taken at 160 to 4 and 5 for

by the cub. The course is in fair stder, but a little rain would improve it considerably.

The autumn meeting of the Hawkesbury Race Club will commence to-day, when five races will be decided. Excursion trains will leave at 9.35 and 10.25 a.m., second-class carriages only, return fare 4x; and a special will take its departure at 10.65, first-class carriages only, return fare 12s. Tattersail's was well attended last evening, but in connection with the club, speculation was very stack. In doubles on the Hawkesbury Autumn Handicap, to be run on Saturday, and the Sydney Cup, the favourite selections for the first named race were Sardenyx, Empress, and Archie; with Commotion, Le Grand, Martin-Henry, and Depot for the A. J. C. big event. The first race, the Hurdle Race, will start immediately after the arrival of the special train, and a protty battle may be expected between Chaeterton, Exchange, and Uhlac. The Rowley Mile will be certain to produce a slashing race, and Kingsdale, Brown and Rose, and Soldier Boy will probably be most in favour. Barge and Lord Excier may come home as named for the Claret Stakes; and Paul will be likely to change owners after the Public Auction Stakes. The day's racing will be brought to a conclusion by the fallows the adventure of the Autumn Handicap.

The following is the programme for to-day:—

time, in the beginning of June.

Some swimming contests are to take place at the Lavender Bay baths on Saturday afternoon. The programme that has been drawn up for the occasion contests several events which should draw forth numerous compesitors. There are to be centests for youths and contest for girls, and a 500-yards race is to be open to all-comers. Professor Cavili and his children will give an exhibition of thair naturey skill. Last of all there is to be an aquatic pole match, between 12 members of the Naval Volunteer Artiliery and 12 of the Permanent Force.

Our Gration correspondent telegraphs that a football club is about to be started, for which 40 members have been processed. The Melbourne association rules will be stopped. For the Good Templare, athletic handicap T. Ellom is on seratch, G. Devoy I vard, Sweeney 6 yards, L. Oekes, the winner of Rusa's 2100 bandicap, 7 yards. Very few of the best runners are nominated in it, although the nominations are very large.

Our Melbourne correspondent telegraphs that a wrestling match took place last evening, in the Hall of Science, Bourke-streer, Melbourne, between Mons. Victor and Thomas, in which the former came of victorious.

H.M.S. ON THE STATION.

Since last report the usually piseld appearance of Farm Cove has given place to one of conderable animation, owing to the return of the squadron from Hobart. The flaship H.M.S. Nelson is at her buoy, and further in the bay are the Diamond, Miranda, Haven, Dart, and the Swinger, the latter one of the most recent additions to the equadron, having arrived from Plymouth on the 89th March. The Unjudget from Auckinad is due here. The Undine, on route from Pymouth, left Hobert for Sydney on the 30th March. The Harrier is also expected here delly. The Lark is now on her way to the Solomon Islands on a surveying cruise. His Excellency the Governor leaves on Tuesday next in the Miranda, for the purpose of visiting Norfolk Liand.

ANNEXATION AND FEDERATION

We republish the following from the London correspondent of the Argus, for the perusal of our English readers, a showing the light in which the annexation and federation questions are presented to us in Australia. We may state that, so far as New South Wales is concerned, no official intimation has been received by the Government of the desire of the British Government for "a very considerable extension of British responsibility in the Pacific," or indeed of any of those "intentions" so profusely attributed to the authorities in England with regard to the two questions above mentioned. Writing on February 22 the correspon-
